

Welcome to our March 2023 Newsletter

As winter turns to spring lets recap on what you have achieved so far with
#FabChanges22to23

During modules 1 & 2 you have reconnected with colleagues & pledged to make a change within your workplace. During the last 3 months you have taken stock & worked to complete your pledges & QI projects – you can find all the pledges & inspirational top tips [HERE](#)

We have now reached Module 4 (March, April, May) & its focus is on you sharing your project & pledge outcomes to inspire & amplify the power of your work & the impact it can have for others. **Then comes the exciting bit!** Our plan is for a daylong conference & awards show later in 2023; giving you the opportunity to present your work, share knowledge & celebrate with colleagues.

We want to make sure your fantastic work is celebrated, & that the learning isn't, forgotten & so we have made sharing your fab stuff made even simpler! We've drafted this [template](#) to help you structure your story. It's designed to help others put your learning into practice. Try and complete every field if you can, but don't worry if you can't. When you have completed the template, delete the instructions & SAVE AS A PDF. Upload it, together with any attachments [HERE](#)

This is your call to action, discuss with your teams, look at the work you have done either individually or as part of your QI work. Share your work either using the template above, or upload your posters or powerpoint presentation. There is no project too small (because we know that the little things are the big things) to be shared, none too small to make a difference.

On the 14th Feb we celebrated our 8th birthday How time flies when you are having fun!
