

CO-Production in Action

Patient Panel

Project aim

To ensure professionals and patients share power to design, plan, assess and deliver support together. in order to improve quality of life for people and communities.

Project Team

Ann Nutt (Chair)
Patient Panel Committee

Timeline for delivery

Coproduction is embedded in the work we do and will continue to evolve and develop over time

Results

- Providing advice and support on coproduction
- Five annual conferences on topics important to patients and the community
- Working in partnership with 23 departments in PAH
- Ensuring the patient is at the heart of all we do
- Supporting staff initiatives
- 147 patients and 14 patient groups connected with the Patient Panel
- 4 annual reports produced
- Excellent partnership working

Measures

By monitoring the number of requests for patient engagement in project work, policy making and committees

Learning and next steps

To continue working in partnership with the local community and wider stakeholders to improve patient involvement in the NHS 10 - year plan.

To realise that we are not all at the same stage on public engagement

Tests for change

Patients are the added value to any project. It gives staff a greater understanding of patients needs. It raises awareness of accessible information. It raises patient awareness to the boundaries that staff have to work within.
