

# Anaesthetic Novice Teaching

## Project aim

To provide a structured introduction to anaesthesia for new core anaesthetic/ACCS trainees and clinical fellows. We aim to provide valuable preparation for clinical practice and for the initial assessment of competence (IAC) as outlined by the RCoA novice curriculum by holding a healthy mix of theoretical as well as practical sessions.

## Timeline for delivery

From: August 2019 To: September 2019

## Overwhelming Need...

By gathering feedback and having a trainee in a leading role, first hand knowledge was gained pointing to the necessity of such a teaching program. Thus, continuing to improve Patient care and empower our People to strive for professional development.

## Improving Performance...

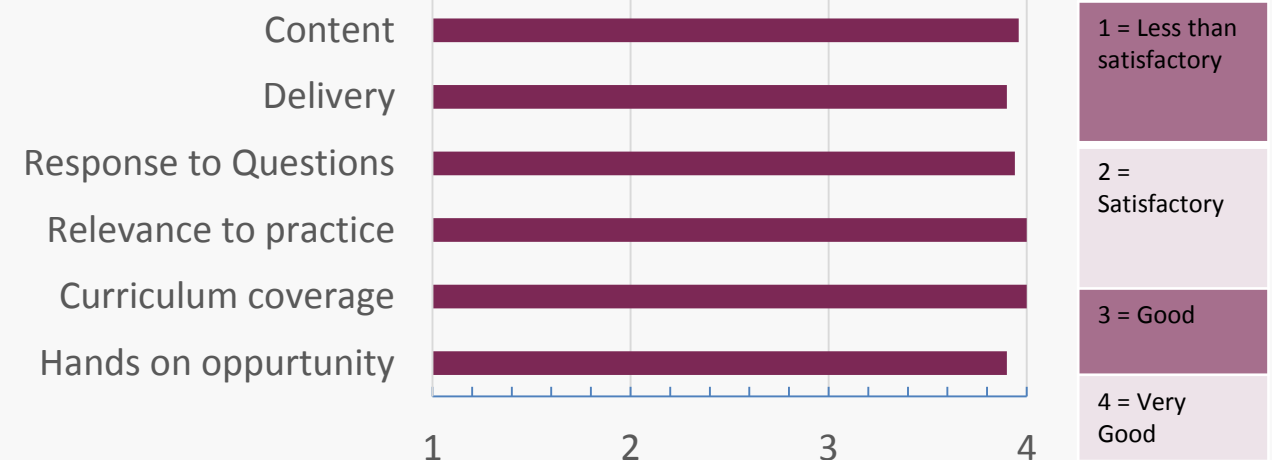

**Feedback** from the novices pointed towards the success of the teaching program, all participants strongly agreeing that attending this program has improved their practice.

## Project team

**Dagmar Holmquist**  
(Consultant Anaesthetist)  
**Shahzeb Zafar**  
(Anaesthetic Trainee)

## Results

## Learning and next steps

We aim to continue teaching for subsequent batches of novices, bringing about improvements guided by trainee feedback.
